

LITTLE WONDER[®]

GET PROVEN RESULTS. GET LITTLE WONDER.

Landscaping & Debris Management
EQUIPMENT CATALOG

We're Little Wonder,

and we've commanded attention in the green industry for more than 95 years. Our hand-cranked hedge trimmer made headlines in 1922 as the first of its kind. Today, alongside our legendary trimmer, we design and develop the most trusted landscaping and debris management equipment. In fact, **we offer more debris management products than any other manufacturer** in this category, including our famous line of Optimax walk-behind blowers and industry leading TruckLoaders. We know how to use air power to move and collect debris better than anyone else. But enough about us. Let's talk about you.

As a professional landscaper, paving contractor or a dedicated DIY homeowner, you demand quality, convenience and durability. You put in long hours and expect your equipment to do the same. If your blower, vacuum and truckloader can't perform the toughest of jobs—be it clearing, trimming, hauling and/or dumping—they are not worth your time or investment, right? We understand completely and engineer our powerful equipment to stand up to your needs, season after season.

So please, browse our equipment catalog, create your wish list and visit littlewonder.com to locate a dealer or rental shop near you. Then,

put us to work
for you.

**LITTLE
WONDER®**

Get Proven Results. Get Little Wonder.™

MORE AIR POWER. LESS MAN POWER.

Optimax™ Blowers

Little Wonder Optimax™ maximum output blowers are perfect for moving leaves, debris and standing water—or for any job that requires hurricane-force air. All models feature a split-stream air deflector, which minimizes “blow-back”, and adjustable, ergonomic handles with anti-vibration grip for operator comfort. Add a transport bracket for convenient tie-down and an industry-leading 5-year warranty, and you’ll see why Optimax is the only blower you need. Available in a variety of push and self-propelled models (LB270H-SP shown at right).

We offer more debris management products than any other manufacturer.

PUSH / SELF-PROPELLED (SP)

Rear Tires	10" Pneumatic Tires w/ Tube	<u>12" Pneumatic Tires w/ Tube</u> 13" Pneumatic Turf Tread Tires w/ Tube			
Handle	Ergonomic 2-position Adjustable; Anti-vibration Grip				
Housing	Continuously-welded Steel; 1 Piece Engine Deck				
Dimensions (H, W, L)	42" x 28" x 56"	43" x 28" x 58"			
Weight	108 lbs.	<u>142 lbs.</u> 202 lbs.	148 lbs.	<u>168 lbs.</u> 228 lbs.	<u>188 lbs.</u> 248 lbs.

Blower of choice for asphalt and paving industry.

Strong, ergonomic adjustable handle with anti-vibration grip for added comfort.

Durable, heavy gauge all-steel housing for strength and durability. Large discharge for optimum air flow.

Curved aerodynamic inlet draws air in smoothly for constant power and helps avoid clogging even if leaves are sucked in.

Convenient lift handle makes lifting the blower on and off the truck easier.

Remote chute deflector control allows you to adjust the split-stream air deflector from the operator's position. (not available on 160 model)

Chain/pulley system controlled from the handle position to adjust the split-stream air deflector.

Integrated front/side discharge allows you to expel the air from the front of the unit or out the side without tools.

Split-stream air deflector moves piles of leaves farther and faster without blow-back. You'll only have to go over the area once.

5-YEAR WARRANTY

Engines are warranted separately by manufacturer.

PARKING BRAKE

Secure transport and reduce roll-offs with the Little Wonder parking brake. The optional parking brake attaches to the main deck of the blower and secures BOTH wheels - enhancing stability on hills and in the back of a truck. It is easily engaged and disengaged by foot.

Item Number	4174094
Kit Weight	6 lbs.
Material	Steel
Finish	Black powder coat
Diameter	10.5 in.
Adjustment	Dual action spring, positioning done by foot
Usage	Works on Optimax Push models only except 9160-02-01

SOLID FRONT WHEEL

The solid wheel adds durability, which is of particular importance when the blower is used over tough and abrasive terrain. The optional solid wheel attaches quickly using the hardware already available on the Optimax blowers.

Item Number	4173815
Kit Weight	10 lbs.
Material	Rubber
Diameter	10.5 in.
Wheel Bearing	Pressed-fit ball bearing
Usage	Works on all Optimax blowers

SWIVEL WHEEL KIT

Optional, easy to install, Swivel Wheel Kit for 360° turning and control. Wheel can also lock into a straight position. Minimizes wear and tear on tires.

Item Number	9050
Kit Weight	15 lbs.
Material	Steel
Finish	Black Powder Coat
Usage	Works on all Optimax blowers except for 9570

TOOL HOLDER

The optional tool holder attaches to either side of a blower and can hold either a shovel or a broom. Two tool holders can be added for maximum productivity.

Item Number	4174355
Kit Weight	2 lbs.
Material	12-gauge steel
Finish	Red powder coat
Usage	Works on all Optimax blowers

Optimax™ Blower
(Shown with optional accessories)

GOODBYE, BACKPACK. HELLO, PRODUCTIVITY.

C5 Blower

The Little Wonder C5 Blower puts 200 mph and 1100 cfm of air power in the hands of consumers everywhere. That's more than twice the air power of many comparably priced backpack blowers—without the backpack backache. Quick and easy to use, this professional-grade machine can tackle a multitude of chores around your property. Simply wheel it over and get to work.

- Clean up yards, curb areas and driveways
- Clear debris from flower beds, hedges and fence lines
- Blow away grass and hedge clippings as well as debris from under porches and decks
- Clear sewage grates and street run-off gutters
- Clean out cracks and crevices to repair cement
- Move standing water, light snow and, of course, **mountains of leaves**—even the wet, heavy ones

Product No.	99170-06-01
Engine	Kohler® SH265
Engine Displacement	196cc
Fuel Capacity	0.95 gal.
Air Filter Material	Urethane Foam
Throttle Control	Manual Adjustment / Infinite Position
Velocity	200 mph
CFM	1,100
Fan	16" Composite
Push/SP	Push
Discharge Chute	3.5"
Chute Adjustment	Multiple Position, Tool-less Adjustment
Handle	Foam Grip, Foldable
Handle Positions	Multiple. Tool-free Interlocking Teeth
Foam Grip	Yes
Front Wheel Size	10" x 2.75" Flat-free
Rear Wheel Size	16" x 2.75" Flat-free
Wheel Bearing	Ball Bearing (front & rear)
Unit Dimensions	36" x 27" x 31"
Weight	102 lbs.

Rugged, dependable professional-grade Kohler® 196cc engine.

Flat-free 10" front and 16" rear tires allow for easy steering and maneuverability on uneven terrain.

2-YEAR RESIDENTIAL / 90-DAY COMMERCIAL WARRANTY

Engines are warranted separately by manufacturer.

SUPERIOR SUCTION MAKES CLEAN-UP A SNAP.

Pro Vac Debris Vacuums

Be it bulky bottles, crushed cans, leaves, pine needles or pea-sized gravel, the Little Wonder Pro Vac doesn't discriminate. Our industry-leading impeller housing design funnels airflow and debris of all sizes into our top-loading, 74.5-gallon capacity bag without loss of suction. So you can collect more debris per bag and spend less time emptying it. The Pro Vac is excellent for residential cleanup, industrial applications, commercial sites and parking lots and is available in push and self-propelled (shown at right).

Simply the best at everything that matters to you.

Nozzle Type / Width	Height Adjustable, Floating / 29"	
Optional Hose	12'	

*All power levels are stated gross horsepower per SAEJ1940 as rated by Briggs & Stratton.

We offer more debris management products than any other manufacturer.

Arched padded handle allows users of any height to find a comfortable operating position. ▲

Get the job done faster with speeds up to 4.2 mph forward / 1.8 mph reverse (Pro Vac SP only).

Low 40" unit height allows for clear visibility of job sites and a better view of the front nozzle area. ▲

Top-loading, 74.5-gal. capacity bag—twice that of the competition—can handle the big loads. ▶

Powered to perform with a Hydro-Gear® T2 transmission and 9HP Honda® GX270 engine (Pro Vac SP only). ▲

Heavy-duty treaded rear drive wheels provide excellent traction on both concrete and grass (Pro Vac SP only). ▶

Dump valve allows for easy maneuverability when the engine is not engaged. ▲

Sleek design and rugged front swivel wheels make turning and following curved walkways and driveways effortless (standard on SP). ▲

Nozzle height automatically adjusts—there's no need to stop the engine to change settings to avoid 'scalping' and 'digging in' on rough terrain. ▶

2-YEAR WARRANTY

Engines are warranted separately by manufacturer.

BAD NEWS FOR DEBRIS.

Pro Vac SI Debris Vacuums

The Pro Vac SI delivers the suction power to clear litter and debris faster. Serrated Steel Impeller Blade Technology with up to a 5:1 reduction ratio delivers superior suction and shredding capabilities in a compact footprint. Keep your pace going with instant easy nozzle height adjustment from the operator's position. You'll get non-stop, efficient pavement-to-turf transition for faster parking lot and leaf cleanup. Throated nozzle design increases airspeed for improved vacuum capability. Unique rectangular discharge chute prevents debris clogs. The optimized 40-gallon, no-kick bag design prevents wear and tear. The Optional Hose Kit for cleaning out flower beds and hard to reach areas, seats securely in a special contoured pocket that blocks air flow when not in use.

BIG BITE. EVEN BIGGER PROFITS.

Skid & Tow-Behind TruckLoaders

Little Wonder Monster TruckLoaders are all bite, attacking debris with ease. These monstrous machines allow you to fit more in the truck and clear more properties between offloads for higher productivity and more profit.

14 HP

FEATURES

- 14HP Kohler® Command PRO® CH440 engine
- 5/16" thick 16" diameter steel teathed impeller
- 2803 cfm
- Tool-free 360-degree discharge chute adjustment
- 8" x 10' Flexible urethane intake hose increases volume
- Polymer discharge chute (with liner) (7" x 30")

Mounting Options:

Skid (standard)
Optional: Hitch, Swing-Away or Tailgate

18 HP

FEATURES

- 18HP Briggs & Stratton® Vanguard™ engine / electric start
- 3/8" thick 20" diameter steel teathed impeller
- 3510 cfm
- Stack gaskets seal in airflow and lock in debris moisture
- 10" x 10' Flexible urethane intake hose increases volume
- 7" x 36" Flex-Tube discharge chute

Mounting Options:

Skid or Swing-Away Hitch
Optional: Rotary or Hitch

29

FEATURES

- 29HP Briggs & Stratton® Vanguard™ engine
- 3/8" thick 20" diameter steel teathed impeller
- 4710 cfm
- Stack gaskets seal in airflow and lock in debris moisture
- 12" x 10' Flexible urethane intake hose increases volume
- Flex-Tube discharge chute

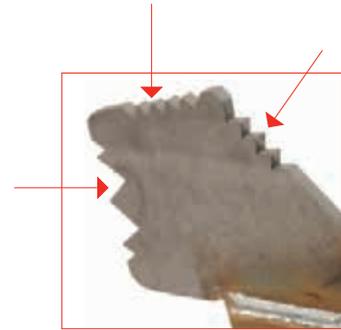

Mounting Options:

Skid or Tow-Behind

ING 15 TO 1
RATIO

What makes a Little Wonder Monster TruckLoader a real beast? A four blade steel impeller with shredding teeth on all three debris touch points provides the best shredding ratio in the industry—**UP TO A MONSTROUS 15 to 1.**

BIG BITE. BIG BELLIES.

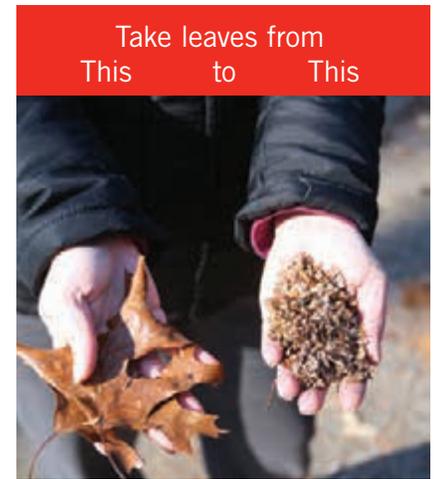

Self-Contained TruckLoaders

Little Wonder Monster Self-Contained TruckLoaders are an all-in-one leaf collection system that includes a truck loader, large capacity dump container and trailer. It's an entire towable leaf collection and dump system you tow with your work truck.

5-Yard Gravity Dump Self-Contained TruckLoader

FEATURES

- 65° Fixed dump bed angle allows gravity to help offload materials
- Double barn doors (rear) w/sidewall door latches secure doors when open for offloading
- Removable roof screens
- 29HP B&S Vanguard™ engine

10-Yard Hydraulic Lift Self-Contained TruckLoader

FEATURES

- Hydraulic lift, 50° angle dump
- Removable upper walls is like having two dump trailers in one!
 - Full dump box (5'H) hauls 10 yards of lightweight bulky debris
 - Half dump box (2'H) allows you to tote and dump up to 10,000 lb. (5 tons) of heavier materials like salt, top soil or gravel.
- Easy hitch-and-go system, 2-5/16" ball coupler road ready trailer (Pintel eye optional).
- Choice of 35HP Briggs & Stratton® Vanguard™ gas or 36HP diesel engine option coming in 2019

Hydraulic lift, 50° angle dump

Removable top walls to haul up to 5 tons

CUT BRUSH NOT CORNERS.

Hydro Brush Cutter

The Little Wonder Hydro Brush Cutter navigates through weeds, heavy brush and overgrown vegetation with ease. Our tempered spring steel 26” blade cuts tall weeds, brush and saplings up to 2” thick. Our welded steel frame design and engine positioning provide excellent balance regardless the terrain. And, unlike the competition, our hydrostatic transmission offers infinitely-variable, clutch-less speed selection—up to 4.2 mph forward and 1.7 mph reverse. So you can cut your own path at your own pace.

- Clear small areas, vacant lots, around barns or buildings
- Clear hilly terrain
- Establish small trails or paths
- Open riding trails
- Clear around ponds
- Perform highway guard rail maintenance
- Clear tinder brush and cut firebreaks in forest area

Product No.	5126-22-01
Product Description	Hydro BRC-26 Honda®
Engine	Honda® GXV390
Displacement	390cc
Fuel Capacity	2.2 qts. (2.1 Liters)
Transmission	Hydro-Gear® T2® Transaxle
Transmission Type	Integrated Hydrostatic Pump / Motor
Axle	.75” Solid Steel
Park Brake	Standard
Differential Lock	Open
Ground Speed - Forward	Infinitely-variable, 0-4.2 mph
Ground Speed - Reverse	Infinitely-variable, 0-1.7 mph
Cutting Blade	26” (.25” Thick)
Spindle / Bearings	1” Diameter / Dual Sealed Ball Bearings
Overall Width	30” (32” at the Handles)
Cut Height / Capacity	3” - 5”/ Saplings up to 2” diameter
Tires	16 x 4.8-8 Puncture-proof, Bar Tread, Foam-filled
Unit Weight	405 lbs.

*All power levels are stated gross horsepower per SAEJ1940 as rated by Briggs & Stratton.

We offer more debris management products than any other manufacturer.

Ergonomic control system with forward / reverse and blade engagement levers positioned at handle grips.

Solid rods connect the operator to the transmission, park brake and cutter blade clutch—no cables to break or adjust.

Speed limiter dial allows a firm grip on the control handles and speed selection while on the go.

7-, 10- and 12-gauge welded steel engine base, cutting deck, rear frame and control handle construction holds up to the toughest conditions.

Single belt pulley system.

16" foam-filled no-flat, puncture-proof bar tread tires for excellent traction and ground clearance on rough terrain.

1" diameter mower blade spindle is supported by top and bottom sealed ball bearings inside a machined steel hub.

Tempered spring steel 26" blade cuts tall weeds, brush and saplings up to 2" thick.

Adjustable 1.5" wide, .25" plate steel skid shoes provide excellent flotation over rough terrain.

2-YEAR WARRANTY

Engines are warranted separately by manufacturer.

CLEAN, SHARP EDGES. NO SHOVEL NEEDED.

BedShaper®

Ready for edging made easy? Put down the shovel, and pick up the Little Wonder BedShaper®. This popular unit features a powerful “concave shape” notched blade to slice through soil, producing clean, sharp edges—even “S” curves—at up to 100’ per minute. Blades are lifetime guaranteed against chipping, breaking, bending and delaminating.

Product No.	904-00-01
Engine	Honda® GXV390
Displacement	390cc
Transmission	Hydrostatic, Infinite Speed Control (forward and reverse)
Blade	16.25" dia., Heat Treated Spring Steel
Bearings	Roller (greaseable)
Frame	Welded, Formed Steel
Cutting Depth	.5" - 4.5"
Depth Adjustment	Pin, 7 Position
Tire Size	145 / 70 - 6
Dimensions (W, L, H)	43" x 51" x 43"
Weight	360 lbs.

Optional bolt-on Shredder Blades Kit Item 80001

Optional shredder kit and weight kit available.

2-YEAR WARRANTY

Engines are warranted separately by manufacturer.

Zero-turning radius easily cuts even small diameter tree rings.

Spring-loaded belt idler provides maintenance free operation and is fully enclosed in the frame.

Self-propelled hydrostatic transmission with powered forward and reverse gets the job done quickly and easily.

Cutting depths from .5" to 4.5" controlled by a 7-position gauge wheel.

Shape-Trak™ design mounts the blade in-line with the drive wheels allowing the blade to follow the precise path.

When the notched blade contacts a rock or tree root, the BladeFloat™ allows the arm to “float” over the obstruction while the blade continues to cut.

CLEARING THE WAY TO A QUALITY FINISH.

Pro Crack Cleaner

The Little Wonder Pro Crack Cleaner is specially designed to clean cracks and crevices in asphalt and concrete surfaces, saving you time and allowing for a longer lasting crack fill and sealant application. Available with a Honda® GX120 engine featuring better fuel economy and rated for up to 2000 hours.

Product No.	6236-00-01
Engine	Honda® GX120
Displacement	118cc
Handles	Anti-Vibration Grips
Cast Iron Cutter Head	Fixed
Drive Belt	Dual Belts
Wire Wheel	Heavy-Duty 9" dia. Spring Steel Twisted Wire
Fuel Capacity	3 qts.
Weight	77 lbs.

Brush Wheel

Heavy-duty 9" diameter twisted wire wheel brush ideal for cleaning out expansion joints and cracks in asphalt or cement.

EDGING OUT THE COMPETITION.

Pro Edger

Designed to produce clean, crisp edges quickly and efficiently—up to 90' per minute—the Little Wonder Pro Edger outperforms all others in the category. This user-friendly unit features fingertip controls for fatigue-free operation and control, making it the edger of choice among landscapers and DIYers.

Product No.	6033-00-01	6232-00-01
Engine	Briggs Intek Series 550	Honda® GX120
Displacement	127cc	118cc
Handles	Anti-Vibration Grips	
Cast Iron Cutter Head	Fixed	
Drive Belt	Dual Belts	
Edging Depth	Up to 4"	
Fuel Capacity	2.25 qts.	3 qts.
Weight	65 lbs.	69 lbs.

PRO CRACK CLEANER AND PRO EDGER BOTH FEATURE:

- **Convenient controls** that allow adjustment of cutting depth (up to 4"), belt tension and blade engagement from the operator's position.
- **Dual belt drive** for extra power to the blade and reduced slippage during application.
- **Four wheel design** for extra stability. All wheels have steel hubs with ball bearings and full axles for smoother and easier maneuverability.

◀ Largest available cast iron cutter head on the market.

◀ 10" steel blade is sharpened on all four sides for longer blade life.

1-YEAR WARRANTY

Engines are warranted separately by manufacturer.

THE FIRST OF ITS KIND AND STILL THE BEST OF ITS KIND.

Hedge Trimmers

Little Wonder Hedge Trimmers have been the top choice of landscaping professionals since the first hand-cranked Little Wonder was built in 1922. We produced the world’s first electric-powered hedge trimmer in 1940, followed by the world’s first gasoline-powered unit in 1955. Our blades last 6 to 10 times longer and require less sharpening than blades typically found on lower-priced, homeowner-grade hedge trimmers. That means you can power through heavy growth and delicately sculpt shrubs without losing your edge.

- Stamped, thru-hardened high carbon tool steel blades maintain a sharp edge for longer periods of time, which means less downtime for maintenance.
- Double reciprocating blades allow for reduced vibration and heavier cuts.
- Hand-sharpened blades cut growth up to 1/2” - 1” in diameter.

GAS HEDGE TRIMMERS

Models	Single Edge
Product No.	2230S-00-01
Blade Length	30”
Weight	12.25 lbs.
Blade Speed	3500 Cuts Per Minute
Cutting Capacity	Up to 1” Thick
Engine	21.2cc, 2-Cycle Commercial Grade Engine
Fuel Capacity	13.57 oz.

ELECTRIC HEDGE TRIMMERS

Models	Single Edge		Double Edge
Product No.	2410-00-01	3010-00-01	2420-00-01
Blade Length	24”	30”	24”
Blade Speed	2700 Cuts Per Minute		
Volts	110		
Amps	4.5		
Watts	462.33		
Weight	7.9 lbs.	8.4 lbs.	8.8 lbs.
Cutting Capacity	Up to 1/2” Thick		

Engineered to be a cut above the rest.

Gas

Two large ball bearings where crankshaft connects to block and needle bearing on connection rod allow for cooler operation.

21.22cc commercial grade engine, rated between 600 and 800 hours.

Electronic ignition and primer bulb carburetor for easy starts.

Shock mounts on handles reduce vibration.

Finger throttle control and lock-out lever give the user enhanced engine and blade control.

Case-hardened steel gears for durability, more power and longer life.

Built-in centrifugal clutch engages blades when engine goes above idle speed, reducing possible damage to gears.

Frame bar with enhanced support from protruding studs through gear box and pressed studs.

Electric

Top and bottom ball bearing mounts ensure the double-insulated motor runs smoother and cooler, extending its life.

Cord management system keeps the extension cord from coming unplugged during operation.

Removable brush cap and gear case covers allow for easy maintenance.

Case-hardened steel gears for durability, more cutting speed and longer life.

Ergonomic handle configuration and precision-balanced design make units easier to use for extended periods.

Safety first and foremost. Blades only engage if both switches are simultaneously depressed.

2-YEAR WARRANTY (ELECTRIC)
5-YEAR WARRANTY (GAS)

Engines are warranted separately by manufacturer.

Since 1922, professionals have relied upon the performance and long lasting durability of Little Wonder landscaping and debris management equipment.

From the production of the world's first hedge trimmer to the aerodynamic redesign of the wheeled blower, we've been changing the product landscape of power equipment for more than 95 years. Our complete line of landscaping and debris management equipment—including bedshapers, blowers, edgers, hedge trimmers, lawn and debris vacuums and truckloaders—is available through more than 3,500 power equipment dealerships nationwide. Did we mention we offer more debris management products than any other manufacturer in this category? Just making sure.
